

Job Opportunity: Customer Relations / Project Management at Scan2Screen US LLC

Scan2Screen, a pioneer in multispectral digitization workflows for historical films, is seeking a dedicated and enthusiastic person for Customer Relations / Project Management at Scan2Screen US LLC in Menlo Park.

<https://scan2screen.com/>

About Scan2Screen:

Scan2Screen leverages a state-of-the-art multispectral scanner and cutting-edge software for image processing, rooted in over a decade of scientific research by Barbara Flueckiger, founder of the [*Timeline of Historical Film Colors*](#), and her teams. With headquarters in Zurich, Switzerland, and Menlo Park, California, and a lab in Berlin, Scan2Screen is at the forefront of film digitization, committed to flexibility and innovation.

Scan2Screen's services include:

- Consulting
- Digitization and / or restoration of historical color films
- Implementing a consistently automated and standardized approach that adheres to transparency, documentation, and reversibility requirements, aligning with restoration ethics. This approach is designed to flexibly accommodate diverse demands from different archiving strategies
- A multispectral, fully modular film scanner capable of adapting to future technological innovations and standards
- Fully automated workflows including color management and color reconstruction processes
- Production of digital assets for the distribution and long-term preservation of digital copies, enriched with comprehensive context information
- Semantic indexing of films, facilitating seamless integration into metadata management and asset management systems in accordance with international standards
- Licensing of hardware and software
- Curation of film restoration projects
- Physical measurements, colorimetry, and documentation of film stocks
- Identification of historical color film stocks

Job Title: Customer Relations / Project Management

Requirements

- Professional experience in the domain of film restoration / digitization
- Excellent network in the archival community
- Professional experience in project acquisition and management
- Professional experience in business development
- Ability to work in an interdisciplinary team
- Outgoing, enthusiastic, friendly, reliable personality
- Goal-oriented and efficient working style
- Innovative personality with a high degree of flexibility to work with a radically new approach

Scope

The selected candidate will play a crucial role in acquiring and managing high-profile digitization and restoration projects for Scan2Screen's advanced multispectral film digitization workflow.

Employment

Employer: Scan2Screen US LLC, Menlo Park

Work Arrangement: Hybrid remote and Bay Area (office space in Menlo Park)

Start Date: December 2024 or later

Initial Period: 40% employment, with potential for increase based on project acquisition

Compensation: Commensurate with qualifications and experience, salary range \$50 to \$100 per hour

US work authorization required

Further information about the project and its details will be provided to selected candidates.

Application Process

Interested candidates should submit a single PDF file (smaller than 10MB) containing a cover letter, résumé, and diplomas to flueckiger@scan2screen.com, with the subject line "Application Scan2Screen."

Applications will be reviewed on a rolling basis until the position has been filled.
